

I support Satellite Radio. I enjoy having the option of listening to Christian music/Christian programing since the reception for local radio is not the greatest in my area. I enjoy not having to listen to commercial after commercial for car dealer, nightclubs and I also like not having to listen to talk radio in the morning, unless I CHOOSE to. I feel it is my right to have the option of the Radio Satellite if I choose to pay for the service. When I travel I like being able to listen to weather reports for the city I am traveling to. Having friends and family out of state, this is a very helpful service. Tina Eaton
